EDUCATION

Texas A&M University

Bachelor of Science in Computer Science, Minor in Mathematics | GPA: 3.95/4

Aug. 2021 – Dec. 2025

College Station, TX

EXPERIENCE

AMD

Software Engineer Intern

May 2024 – Aug. 2024

Austin, TX

- Developed a Fuse Validation Software tool for the RTG Product Development Test Flow Process
- Leveraged **Python**, **Snowflake**, **REST** and internal libraries for data retrieval/analysis, visualization and reports
- Created a scalable object-oriented class for future products in the production cycle that increased validation efficiency by **75%**

Tutor.com

Mathematics/C++ Tutor

Mar. 2023 – Aug. 2023

Remote

- Tutored **50+** students by teaching them mathematics and intro to **C++** topics
- Maintained a **100%** satisfaction rating by creating a positive learning environment and engaged in questions to assist students based on various levels of understanding and needs
- Incorporated usage and understanding of **data structures** and **algorithms** to help simplify topics for students

PROJECTS

Candl3.tech | *Next.js, MongoDB, Flask*

Oct. 2023

- Won **1st place** for **best database design** in the **UT Austin HackTX** Hackathon by developing a **fin-tech** analysis game to practice graph analysis and stock trends for current and aspiring traders
- Integrated **React ApexChart** components for high quality stock visualization

Virtual CPU | *Logic Gate Design/Nand2tetr*

Mar. 2023

- Used software dedicated to **control pathing** and **virtual circuit design** to develop a functioning **CPU** through the implementation of logic gates
- Applied knowledge of **processors**, **memory management**, and **data representation** expressed in the CPU design

Portfolio Website | *HTML, CSS, JavaScript*

Dec. 2022 – Jan. 2023

- Designed a personal portfolio website that includes current projects, contact information and animations
- Utilized **JavaScript** for features such as user-activated displays and **CSS** styling for graphic design (lighting effects, typewriter text, and more)

EXTRACURRICULAR/ACHIEVEMENTS

Texas A&M Rev-Fund Quant-Group

May 2024 - Present

- Part of the **Quantitative trading** group under a real sponsored school fund with 10 million dollar AUM
- Active participant and engagement in meetings discussing **market trends**, **math-models** and potential software ideas to maximize profits

Aggie Coding Club

May 2022 - Present

- Active engagement in meetings practicing for technical interview questions (leetcode, coding problems, etc.)
- Group collaboration and assistance with project-oriented **software development** (debugging, tips for implementation, general advice, and more)

TECHNICAL SKILLS

Programming: Python, C++, HTML/CSS, JavaScript, Java, SQL (Postgres), React, Node.js, Flask, MongoDB, Next.js, TypeScript

Developer Tools: Git, Google Cloud Platform, VS Code, Visual Studio, PyCharm, Eclipse

Libraries/Other: Pandas, NumPy, Matplotlib, OverLeaf/LaTeX, Adobe Photoshop, MS Office Suite, Sony Vegas Pro
